IRIS and PEONIES

....at....

T W I N E L M S

G. J. BOEHLAND

COREY'S BLUFF ☞☞ ROCKFORD, ILL.

Introduction

We have collected Irises since 1914, but last season we published our first catalogue. Results were most gratifying. We sent Iris roots as far east as Maine; west, Oregon; south, Dallas, Texas; north, Duluth, Minn. Many were the words of commendation on the quality of roots sent out. We received many trial orders, followed by additional orders. One lady in Illinois sent us her sixth order.

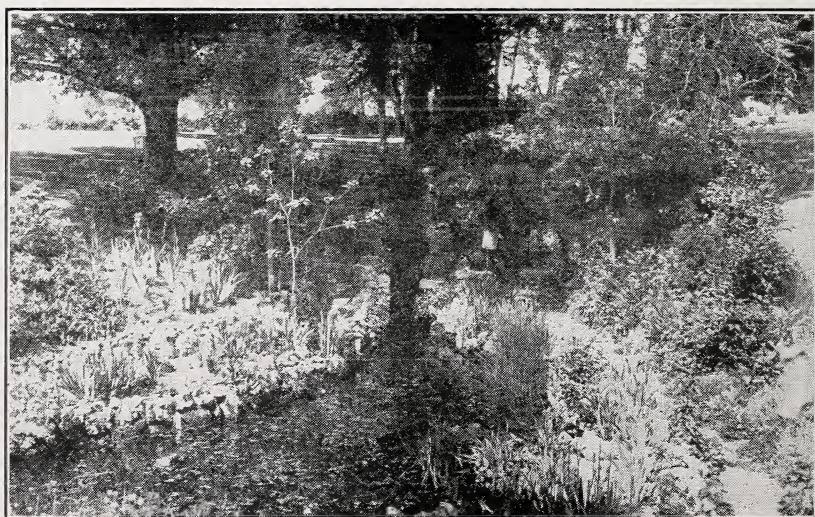

Knowing from past experience the quality of roots we like to receive we aim to give our customers just that kind and better, in that way knowing we please them.

We have so many fine qualities now at such nominal prices that they should be passed on.

There are so many of the old and obsolete varieties everywhere that we hope some day these people can be reached, whereby their old things will be replaced by the new ones.

A VISIT TO TWIN ELMS

Personally I have visited gardens from coast to coast, and always learn and enjoy seeing how others do things. Only last week I visited Mrs. Silas B. Waters, Mrs. J. F. Emigholz, her son Robert, and Dr. and Mrs. Wylie McL. Ayres, Cincinnati, Ohio. Am sorry I cannot go into detail as to what I saw in their gardens and how I appreciated these fine folks.

One of the Pools, Home Grounds

I think you would enjoy seeing our grounds and garden to see what we have growing. We are only 28 miles east of Freeport and 2 miles south of Rockford on State Highway No. 2, Corey's Bluff.

Of the 72 Iris varieties added to our list the past year, we want to call your attention to part of these that will bloom this season.

Grand Monarch
Blue Velvet
Zaharoon
Pluie D'Or
Yves Laissailly
Melchoir
Nicee
Don Juan
Beau Sabreur

Opaline
Thiase
Evolution
Rameses
Wombliska
Surprise
Mrs. Valery West
Sir Michael

Twin Elms consists of 25½ acres. Home grounds, 19½ acres. If you have time when here would be glad to have you see it all. You are more than welcome to pay us a visit.

Sincerely,

**TWIN ELMS,
G. J. BOEHLAND.**

SEEDLINGS

Many will bloom for first time this season, having bloomed seedlings for the past ten years, we have not as yet introduced one. We believe there are too many seedlings named and put on the market that are not worthy, with the present day standard.

I am firmly in accord with the American Iris Society, which has outlined a revised policy in their April 1931 Bulletin, page 109, wherein a Policy of Awards and Honorable Mention will be given by accredited judges, approved by the board of directors.

A good movement in the right direction. We hope this will work out satisfactorily to our many hybridizers.

EVERY GARDEN

should have the following high quality Iris. I paid from \$5.00 to \$25.00 for every one of them and have never regretted it, because of the pleasure they have given me, and the higher standard added to my collection. This was only a few years ago. Today it is possible for you to add these to your list at the very nominal prices given below:

Amber	\$.65	Marjorie Tinley60
Asia50	Mildred Presby50
Ballerine50	Moonlight	1.00
Bruno	1.25	Mother of Pearl.....	.25
Cardinal	2.25	Morning Splendor60
Citronella60	Pioneer	1.00
Duke of Bedford.....	1.00	Robert W. Wallace.....	1.50
George Yeld75	Santa Barbara65
George J. Tribolet.....	.75	Swazi	3.00
Germaine Perthus.....	1.75	L. A. Williamson.....	.20
Parpalion50	Taj Mahal50
Imperator40	Tenebrae75
Jubilee65	True Charm50
King Karl75	Wedgewood	1.00
Majestic50	Distinction	1.00

FREEPORT IRIS SHOW**JUNE 67th and 7th**

An unusual event, in fact an outstanding flower show. The fine spirit and co-operation of Freeport people, given their president, Mrs. W. L. Karcher, has given Freeport the reputation of giving the finest Iris show in this country. Nowhere will you see such quantities of new and rare varieties of Iris. Much credit also goes to Mrs. Douglas Pattison, proprietor of Quality Gardens, who usually is first in this country in securing and introducing most of the new varieties originated in France, England, and our own country.

The past shows have attracted people from great distances. This year I know many of the leading Iris hybridizers will attend.

G. J. BOEHLAND.

Shipping and Packing House

Also we give our ONE MAN PEONY SHOW HERE. We aim to fill most classes as given at the National Show. We have competent judges and award ribbons for the benefit of our visitors.

Show Date, 1931—June 16th and 17th.

You are welcome. We are growing over 200 varieties rated over .8.

PLANTING DIRECTIONS

August and September are the best months to plant Iris, if strong plants are used and planted in these months they usually throw one bloom stock the following season.

Drainage is absolutely necessary to be successful with Iris, that is raise your bed a trifle so water will not stand where Iris are planted.

Iris grow easier and multiply faster than any other perennial. When planting loosen soil thoroughly, put roots of plant in hole, cover with soil, press firmly over root, before filling hole with balance of soil, pour on water, let stand a few minutes, before placing remainder of dirt around plant. The rhizome should be barely covered, the top should not have more than one-quarter inch of soil over it. Do not water thereafter.

First winter after planting it is well to cover lightly with leaves or straw after ground is frozen. In early spring it is well to see that this has not been removed. If so, replace because if any harm is done it will be at this time when it freezes and thaws, the covering will prevent heaving of your plants. Covering of plants will not be necessary the following years.

Remove covering after spring has advanced and plants show signs of new growth.

CULTIVATION

Like most plants Iris do better when cultivated several times during season. Care must be taken not to disturb roots. Many of these are close to top of soil. Loosen soil not too deep around plants.

Bone meal as a fertilizer worked in soil early in fall can be recommended. Wood or coal ashes are beneficial.

Any one can be successful with Iris. The only thing to do is to plant them. They will grow and bloom.

In planting an expensive plant, in following the above instructions, you will not fail.

RATING—The numbers preceding the name of a variety are the ratings of the American Iris Society, Symposium of 1928. First number, exhibition; Second number, Garden score. Other varieties have not yet been voted on. Following the name, in parenthesis, is the name of the Originator and year introduced. Those abbreviated as follows: Andr., Andrews; Burch., Burchfield; Cay., Cayeux; Den., Dennis; G. & K., Goss & Koenemann; Ken., Kennicott; Pres., Presby; Koeh., Koehler; Mill., Millet; Mor., Morrison; Sturt., Sturtevant; Verd., Verdier; Will., Williamson; Vil., Vilmorin.

TIME OF SHIPMENT—Irises will be shipped from 15th of July until the 15th of September.

S. refers to the 3 upright petals (Standards). F. the three drooping petals (Falls).

SUBSTITUTES—If any varieties you have ordered are sold out something as good or **better** will be substituted **if you request**. Otherwise your money will be returned. **Postage** on all orders will be prepaid.

TALL BEARDED IRISES ONLY

- AKSARBEN, 79-77** (Sass. 1923). A very unusual velvety plicata with a soft yellow ground veined and dotted prussian red.\$.25
- ALABASTER** (Andr. 1926). A new snow white, or fine form, wonderful texture with slightly ruffled edges. Beard nearly white, shading to yellow, 36 in. \$.50
- ALCAZAR, 86-87** (Vilm. 1919), 42 inches. FRAGRANT. The standards are soft violet to orchid color and of a glistening silky texture. The falls are rich velvety crimson purple, with a white throat, heavily veined bronze. There is a bright orange beard and amber style arms. \$.20
- ALLIES** (Vilmorin 1925). S. deep violet rose shaded copper. F. deep, rich velvety red-purple, with bronze markings on light base. A very rich colored Iris, delightfully distinct. It frequently blooms in the autumn. \$2.00
- AMBASSADEUR, 92-91.** (Vilm. 1920). S. smoky reddish-violet. F. very brilliant deep red-violet; rich orange beard. One of the grandest irises in the world. 40 in. \$.35
- AMBER, 88-88** (Dykes, 1924), 36 inches. A fine self yellow, vigorous grower. Given an Award of Merit by the Royal Horticultural Society of England. \$.50
- AMBIGU, 78-79** (Vilm., 1916), 30 inches. Standards—ruffled smoky red; falls—rich velvety dark rose purple. \$.25
- ANNA FARR, 80-77** (Farr 1913). White, lightly marked with pale blue. Fragrant; very lovely, 36 in. \$.25
- ANNE LESLIE, 75-74** (Sturt. 1917). Standards faintly flushed with rose; falls dahlia carmine, 30 in. \$.20
- ANN PAGE, 86-85** (Hort. 1919). Uniform pale blue self, deliciously scented F. heavily penciled brown at haft. Extra fine. 3½ ft. \$.75
- ANTARES** (Vilm. 1926), 32 inches. A fine large new variety of unusual coloring and fine texture with soft cream standards, shaded and marked ageratum blue, with yellow styles and beard. Something entirely different. \$1.25
- APACHE, 85-87** (Farr 1926). This last introduction of Mr. Farr's is unique among irises for its beautiful copper tones. \$.50
- APHRODITE, 81-88** (Dykes 1922). A large bright cattelya rose self without markings of any kind, that for purity of tone, brightness of color and perfection of form has no equal. Vigorous stems, tough and well branched, fine substance. 4 ft. \$1.00
- ARCHEVEQUE, 79-81** (Vilmorin, 1911), 24 inches. FRAGRANT. An unusually rich coloring, the standards being rich purple violet and the falls deep velvety plum purple. \$.20

- ARIEL** (Murrell 1924). 40 inches. FRAGRANT. A very sweetly scented soft harebell blue of a lovely shade. A perfect flower in every way. One of the earliest to bloom. Very fine garden effect, heavy bloomer. \$.50
- ARNOLD**, (Denis, 1922). A dark reddish violet; F. rich, deep, velvety, very dark pansy violet throat marked brown on dull yellow ground. A very fine flower. A much improved Arnold. 3½ ft. \$.30
- ASIA, 92-88** (Yeld. 1920). S. pale silvery lavender deepening at base to golden yellow. F. flaring, pale red-purple, lighter toward margin. Massive flower of pleasing shape and unsurpassed in form and beauty. 52 in. \$.50
- AUTUMN KING, 74-77** (Sass. 1924). A blue purple bicolor of fine shape, size and height that in the South blooms in the fall. 3 ft. \$.50
- AUTUMN QUEEN** (H. Sass. 1926). A white fall blooming Iris. 15 in. \$.50
- AZURE, 77-74 (Bliss)**... S. lavender blue. F. blue purple; mass effect blue. 32 in. \$.20
- BALLERINE, 90-89** (Vilm. 1920). S. light luish violet with rounded wavy edges. F. deeper blue. Very fragrant. Large flowers on tall widely branched stems. A really worth while iris. 4 ft. \$.50
- BARCAROLLE** (Cayeux, 1925), 32 inches. A very lovely variety with violet mauve standards and deep mauve falls and a soft white undertone. A fine landscape variety. \$.50
- BARTON HARRINGTON, 76-79** (Fryer 1919). S. bright golden yellow; F. red-brown. Fragrant Golden orange beard. 30 in. \$.20
- BELISARE, 84-83** (Cayeux 1924). S. soft tan; F. a lovely shade of rosy crimson shading into fawn. Color unique and beautiful. 36 in. \$1.25
- BEAU IDEAL, 82-78** (Sass). White with a solid half-inch border of petunia violet on both standards and falls. 32 in. \$.75
- BEAU SABREUR** (Williamson 1930) S. yellow; F. ox-blood red. Very outstanding. It will be popular when known. \$15.00
- BENBOW, 76-78** (Bliss 1917). Large deep violet blooms on tall erect stems. \$.25
- BENRIMO, 75-73** (Perry 1923). 48 inches. Fine, large, well-placed flowers of perfect shape and smooth texture on stout, erect, four-foot branching stems. Bright blue standards with light purple falls and a conspicuous throat. \$.50
- BERTRAND, 89-87** (Bliss 1923). 36 inches. One of the very best of the famous "Dominion race." The gigantic flowers are of perfect form and of the finest texture. The standards are of bright lavender-violet and the velvety falls are of rich deep violet. \$1.00

BLUE VELVET (Loomis 1929). 46 inches. A velvety dark blue self; rich orange beard. A flower of large size, wonderful form and substance, on tall, well-branched stalks. One of the richest dark velvet blues yet produced. **\$30.00**

BRANDYWINE, 81-82 (Farr 1920). Large flowers of an exquisite shade of light blue with a bright golden beard. 3 ft. **\$.35**

BRENTIS (Williamson No. 192, 1927). Mr. Williamson's description. Tall bearded. Foliage remarkably tall and erect, forming a fine garden clump. The flowers endure sun, wind and rain unusually well, and the flowering season is unusually long. Plant very healthy and vigorous. Height 3 feet stalk well branched, 6 to 12 flowers. Foliage tall and erect, purple tinged at base. Flower medium to large, about 4 inches wide. Lavender-violet, tinged and spotted yellow at base. Falls flaring; wedge shaped; pansy violet at base. Style branches light pale yellow; crests and along the center light blue. **\$.35**

BRUNO, 91-90 (Bliss 1922). S. fawn, tinted rose, shading to yellow at the base. F. deep, rich, velvety red-purple of exceptional size and great substance. Very distinct, scented. Wonderful in bright sunshine. **\$1.25**

B. Y. MORRISON, 84-80 (Sturt.) 8.4. S. pale lavender-violet; F. velvety purple. 33 in. **\$.50**

CAMELOT, 77-81 (Bliss). Nearly four feet. S. and F. creamy white edged violet. **\$.20**

CAROLINE E. STRINGER, 84-83 (Sass 1924). 30 inches. This is the lightest pink toned Iris in cultivation; in fact it might almost be classed as a white delicately flushed pale pink. It is a very beautiful Iris. **\$.75**

CANDLELIGHT, 96-91 (Andr. 1926). Large flowers of pale pinkish lavender illuminated from within with a rich golden glow; a very lovely iris. 45 in. **\$2.00**

CARDINAL, 92-90 (Bliss 1919). Dominion Seedling. One of the richest flowers of the Dominion race. S. Distinct shade of lavender, overlaid with rose, erect and arching inward at the top. F. rich raisin-purple, very broad and rounded, and of wonderful texture. 40 in. **\$2.25**

CASSIOPEE. S. broad, ageratum blue; F. Dauphins blue, edged grey. **\$1.00**

CELESTE, (Lemon). Azure blue self. Useful for massing. Uniform Height. **\$.20**

CHALICE, 84-82 Sturt. 1924). Bright soft yellow self. 33 in. **\$.25**

CHASSEUER, 82-85 (Vilm. 1924). 36 inches. One of our largest and finest yellow Irises with bright Prussian red veining at the throat. **\$.50**

- CHARTIER, 88-89** (Hall 1925). 32 inches. This very fine white Iris was awarded the American Iris Society Silver Medal. It is a flower of perfect form, good substance and exquisite daintiness. \$2.50
- CINNABAR, (Will. 1928).** S. Violet-purple shading to copper at claw. F. flaring, Cotinga Purple, center and crests Pale Ampara Purple. General effect of flower, in mass, rich dark red of one tone, though it is a bicolor due to the heavy velvet falls. 42 in. \$4.00
- CITRONELLA, 88-55** (Bliss 1922). S. bright golden yellow, deepening at the base. F. rich golden brown, heavily lined carmine. A flower of wonderful form and habits of growth. 3 ft. \$.60
- CONCHOBAR, 88-55** (Bliss 1921). A rich purple with a reddish tinge. On the lines of Cardinal, but larger and taller. An iris of real merit and promise. 48 in. \$1.00
- COPPERSMITH** (Shull 1926). Large flower of Ambassador type. S. purple drab to cinnamon drab. F. rich dahlia carmine blended lighter at the center. 40 in. \$3.00
- CRETAN, 73-78.** Early deep violet purple. \$.25
- CRETONNE, 75-76.** (Bliss). S. pale bronze-purple; F. rich red-maroon. 36 in. \$.20
- CRIMSON GLOW** (Millet 1924). Large, handsome, well-shaped flowers of a uniform shade of brilliant crimson rose. S. frilled, incurved; F. exceptionally broad. Very free flowering. \$.75
- CRUSADER, 85-85.** A large violet-blue self with a rich orange beard. Fine form and substance. Very free flowering. Very extra. 40 in. \$.25
- DALILA, 76-79** (Denis 1914). A distinct and striking variety with creamy yellow standards and plum-red falls; a good grower and very free flowering. 2½ ft. \$.25
- DAPHNE, (Bliss).** Nearly 3 feet. S. purest white. F. blue purple veined bronze. \$.25
- DELICATISSIMA, 80-80** (Mill. 1914). Lobelia blue, suffused rose. Falls are soft bright violet, shaded lilac. Large flower, 3 ft. \$.25
- DEJAH, (Perry).** S. dark silver-blue; F. bright mauve-blue. 42 in. \$.25
- DIMITY, 78-78** (Bliss). S. white, penciled with mauve; F. lavender. 36 in. \$.20
- DISTINCTION, (Cayeux 1925).** 32 inches. A handsome, uniform soft rose of distinctive shade with a soft yellow throat and lemon yellow styles. A flower of refinement and perfect form. Ladies like it. \$1.00

- DOLLY MADISON, 93-91** (Will. 1927). S. gracefully arching, cupped, mauvette shading to yellow at base. F. lilac flushed with blue, flaring. Described as a glorified Quaker Lady enriched by stronger tints of blue and gold and a much larger flower. Strong and well branched. 36 in. **\$5.00**
- DOMINION, 88-82** (Bliss 1917). S. light bluish violet. F. rich indigo purple. Very pronounced orange beard. Wonderful in size, color and substance of flower, but a slow grower. 30 in. Parent of a new race. The new and finest irises have Dominion blood. **\$2.00**
- DON JUAN** (Cayeux 1928). C.M., and Special Prize for one of the best new irises S.N.H.F. 1928. E.93, G.90, M. S. 40". S. mallow pink, shaded old gold; F. flaring, rich pansy-violet shaded lighter at edge; bright orange beard; sweetly scented. A vigorous, well-branched variety producing a very large flower, of wonderful form, color and substance which is outstanding as a specimen plant. **\$25.00**
- DORA LONGDON, 76-78** (Bliss 1918). 34 inches. LATE. An interesting large flowered variety with honey yellow standards, flushed magenta and a rich golden base. The falls are magenta, fading to pale rose at the edge, with a creamy throat, veined maroon. **\$.20**
- DOROTHEA K. WILLIAMSON** (Williamson). Beardless. A rich velvety blue purple with swinging stems and large flowers borne in the leaf axils. Everyone should have it. **\$.50**
- DRAKE, 77-79** (Bliss 1919). A pretty satiny-textured flower of pale blue lavender effect; free flowering. 3 ft. **\$.20**
- DREAD 84-84** (Sturt. 1918). Described as a rose pink. Similar to Susan Bliss and Mrs. Marian Cran. A very fine iris. 42 in. **\$.25**
- DUKE OF BEDFORD, 89-87** (Bliss 1922). 34 inches. A very fine, large iris of "Dominion" parentage; rugged, free flowering, of perfect form and fine rich coloring. The standards are of deep reddish violet and the falls are a rich velvety blackish purple. **\$1.00**
- DUKE OF YORK, (Perry 1923).** 44 inches. An exquisite soft mauve, just a shade darker than Queen Caterina and a much more prolific bloomer, with ten to twelve flowers on a stalk; tall, well branched, rugged and one of our most desirable varieties. **\$.40**
- DUSKY MAID, 76-77** (Bliss). Mid- season. S. bright tan. F. red purple bordered tan. **\$.20**
- ECLAIREUR, 73-83** (Cayeux 1923). 40 inches. A fine large iris, tall stems. Standards white, lightly suffused lilac. Falls violet. The largest and tallest white bicolor. **\$.35**
- E. C. SHAW, 77-81** (Fryer 1919). S. light claret. F. claret, veined and shaded black. Sweetly scented. 26 in. **\$.35**
- EDOUARD MICHEL** (Verd. 1904). A distinct and deep petunia-violet, almost a self. Similar but superior to Caprice. 36 in. **\$.35**

- E. H. Jenkins, 82-81** (Bliss 1919). S. pale steel-blue purple. F. deeper shade. One of the best blue-toned varieties. Tall, well branched. 42 in. \$.50
- ESPLENDIDO, 83-86** (Mohr 1924). A very large flower, rich red-purple bi-color of good form. Tall and beautifully branched. 40 in. \$.50
- EVENTIDE**, (Sass H. P. 26). A slatey lavender, distinctive and attractive. Quite outstanding. 32 inches. \$1.00
- EVOLUTION** (Cayeux 1929). C. M., S. N. F. H. and Special Prize for one of the three best new irises 1929. E.90, G.88, M. S. 36". S. light madder-brown; F. flaring, madder-brown, shaded mauve at midrib and base; bright orange beard. Deeper in color than Mme. Durrand and Fra Angelico which it resembles although not so large or tall as the former. The flower is unusual in color, of good form and substance, on well-branched stalks.
- FEDORA, (Cayeux)**. Two feet; taller than Iris King. S. old gold. F. red violet, edged old gold. \$.35
- FRA ANGELICA** (Vilmorin 1926). S. hazel and honey yellow, very cupped and erect. F. honey yellow overlaid and suffused palest lavender. Rich golden style branches. A very dainty French novelty. \$2.00
- FRANKLIN BEYNON, 68-77** (Perry 1923). Rosy mauve self. White and yellow beard. Vigorous, and free flowering over a long period. \$.20
- FRIEDA MOHR, 89-85** (Mohr 1926). S. domed, lilac-pink. F. broad slightly flaring, lilac-rose, pale yellow beard. A very large flower of fine form and heavy substance. A wonderfully beautiful iris. 42 in. \$2.00
- GABRIEL, 88-87** (Bliss 1923). S. very broad, well rounded and finely arched, bright clear steel blue. F. very broad and flat, hanging, light violet-blue, suffused deeper at the haft. A magnificent variety described as a greatly improved E. H. Jenkins. Vigorous and well branched. 4 ft. high. \$2.25
- GAVIOTA, 82-82** (Mohr 1924). A creamy white plicata with both standards and falls edged yellow. Good size, form, and texture. 30. in. \$.25
- GEORGE YELD, 83-85** (Perry 1923). S. bright apricot shaded rose. F. brilliant rose-crimson, edged buff. A beautiful combination of colors. Larger flowers of fine form, produced on tall, strong, well branched stems. 40 in. \$.50
- GEORGIA, 81-83** (Farr 1920). Uniform cattleya-rose self; beard white, tipped orange. A little darker and taller than Cecile Minturn. Profuse bloomer and early. 30 in. \$.25

- GEORGE J. TRIBOLET 90-88** (Will. 1926). S. negrosin-violet. F. a solid and velvety blackish red-purple. The blooms are medium to large size of fine form and substance. A magnificent iris. 40 in. \$.75
- GERMAINE PERTHUIS 91-90** (Mill. 1924). Special award Paris Iris Commission 1924. S. a pleasing tone of violet-purple, lighted a brighter tone. F. deep Bishop's violet, of velvety texture. Flowers of enormous size, and fine form, and the sweetest scented of all irises. This iris created a sensation when shown at many exhibitions in 1928. 3 ft. \$2.00
- GLAMOUR, 89-86** (Bliss 1922). S. are broad and finely arched; heliotrope, tinged pale ochre yellow and shot lilac. F. a pure rich velvety red pansy violet. A strong branching grower and particularly free flowering. The flowers have great substance, lasting quality and perfect form. 3 ft. \$1.00
- GLORIAE 84-78** (Cayeux). Forty inches. Wonderful, tall, light blue self. \$1.75
- GLOWING EMBERS, 87-86** (Sturt. 1923). S. light brownish lavender. F. rich velvety pansy purple, enclosing a glowing center of orange beards and yellow netted hafts. Heavy rich blooms on tall stems. 42 in. \$1.00
- GOLD IMPERIAL, 86-87** (Sturt. 1924). A fine chrome yellow self. Vigorous and free flowering. 33 in. \$.50
- GOLDEN GLORY** (Jackson 1927). 42 in. A self lemon yellow, tall, sturdy, fine effective plant. \$2.50
- GRAND MONARCH** (Rowell 1929). 40 in. Self velvety bronze red of the heaviest velvet texture. Golden beard. A very luminous flower. This one will be in the front ranks for a long time. It is outstanding. \$13.50
- GREVIN, 78-78** (Vilm. 1920). 28 inches. A large flower with bright violet standards and rich velvety violet purple falls. \$.20
- HALO, 83-81.** (Yeld 1917). S. soft light violet. F. slightly darker. bluish-violet. Very large flowers similar to Lord of June, but better form. 38 in. \$.35
- HARMONY, 79-82** (Dykes 1923). Deep, rich violet-purple self. Even the beard is purple. One of the most free flowering. A distinct and beautiful iris. \$.35
- HARPALION, 77-77** (Perry 1923). 50 inches. FRAGRANT. Very early. A fine, large, perfectly formed flower on very tall erect stems, with standards of light lavender, just slightly tinged bronze; falls rich lavender blue; bright orange beard, old ivory styles and lavender crests. Should be of value for breeding. A distinctive blend in this size and height would prove interesting. \$.25

- HARRIET PRESBY, 82-83** (Pres. 1922). Petunia violet in two tones. Somewhat the color of Aphrodite, and without markings of any kind. Very tall. A splendid iris. 42 in. \$.50
- HERMOSA, (Dean).** Light pink. Lavender blend. \$.25
- IMPERATOR, 83-84** (Cay. 1923). S. very large clear violet. F. beautiful shade of reddish-violet reticulated red-brown at the throat. Orange beard. Very beautiful. 40 in. \$.35
- ISOLINE, 83-84** (Vilmorin 1904). S. silvery rose flushed bronze. F. mauve with gold tint. 3 ft. \$.25
- JACQUELINE GUILLOT, 82-83** (Cay. 1924). A very handsome flower of unusually smooth satiny texture. A pale lavender blue self. 36 in. \$.90
- JAPANESE, 68-66** (Farr). S. lavender white flecked violet. F. violet edged pale lavender. \$.20
- JUBILEE** (J. Sass). S. yellow; F. cream dotted with purple. A large ruffled flower, 2 ft. \$.65
- JULIA MARLOWE, (Shull. 1924).** S. Chinese violet; F. raisin purple. A stately flower producing a glowing, far-carrying pink and red effect in the sun. A large flower of great merit and fine carrying quality. 40 inches. \$1.00
- JUNIATA, 78-81** (Farr). 42 inches. A clear blue violet self with bright orange beard. \$.20
- KALOS, 80-77** (Sass 1924). 32 inches. It is an exquisite flower of perfect form and quite unlike any other Iris. The white standards, which are slightly ruffled, are beautifully flushed soft violet and the milk white falls and delicately peppered, flushed and pencilled soft rose; bright yellow beard. \$.50
- KATHERINE FRYER, 76-73** (Fryer 1917). S. clear sulphur yellow. F. velvety violet-carmine. Orange beard. Very similar to W. J. Fryer, but more brilliant and better stem. 33 in. \$.20
- KING CARL** (J. Sass 1925). A ninproved Jubilee type, with well placed flowers that stand out nicely from the foliage. Probably the best of the Sass seedlings. Apricot standards, dotted pink and brownish red; ivory falls edged with maroon dots. \$.75
- KING TUT** (H. P. Sass 1926). S. and stigmas cacao brown; F. Hes-sian brown; haft and beard golden yellow. \$4.75
- KOCHI, 75-80** (wild). Intermediate, early. Flowers, deep blackish purple. Very rich coloring. 2 ft. \$.20
- L'AIGLON, 86-87** (Shull 1926). 38 inches. LATE. This variety (and Coppersmith by the same originator) are two of the finest Irises in the world. Both varieties, however, are not needed, as they are too similar, but either Coppersmith or L'AIGLON will class with Sir Michael and Bruno, as among the world's finest Irises. A rich bronzy red bicolor. \$2.50

- LA NEIGE, 78** (Verdier 1912). Pure glistening white. 27 in. \$.25
- LADY BYNG, 80-83** (Bliss 1922). A sister seedling of Susan Bliss, and a beautiful flower of fine form and texture. The color throughout is a clear pale lavender with a slight suffusion of rose. A little darker than Mlle. Schwartz. Very free and increases rapidly. 36 in. \$.40
- LENT A. WILLIAMSON, 88-78** (Will. 1926). S. campanula-violet F. royal purple. Massive flowers. Brilliant gold beard. 42 in. \$.20
- LEVERRIER, 86-82** (Den. 1917). S. Chinese violet. F. pansy violet. General effect light rose-red. A magnificent large spreading bloom on a four foot stalk. \$.60
- LE CORREGE, (Vilm. 1927).** Very large flowers; S. smoky bronze shot with lavender, and suffused with red. F. very large, very broad, bright dark velvety red, with a brilliant, prominent beard. Vigorous grower, well and widely branched; sweetly scented. 46 in. August delivery. \$2.50
- LORD OF JUNE, 88-78** (Yeld. 1911). S. Chicory blue; F. lavender-violet. Very large flowers. 3 ft. \$.35
- LORD LABOURNE, 84-85** (Perry 1923). EARLY. Fine large flower of perfect form, rich coloring and good substance. S. soft rosy fawn; F. rich madder-crimson, golden beard. 40 in. \$.50
- LONA, 84-83** (J. Sass 1923). 30 inches. An exquisite flower as exotic in appearance as the finest orchid. In fact it resembles a fine orchid, more than any other Iris. An entirely new departure. Ruffled peach colored standards; white falls beautifully veined and minutely peppered violet. \$1.00
- MADY CARRIERE, 80-80** (Millet 1905). 36 inches. Standards pale Plumbago blue; falls Ageratum blue shading to rich yellow at the base. Throat and beard bronzy gold. A very lovely soft blended variety. \$.20
- MARGERY, 83-79** (Dean 1922). S. light wistaria violet; F. Bradley's violet. Huge flowers on tall stems. \$1.00
- MAGNIFICA 87-85** (Vilm. 1920). S. light violet blue on white. F. long drooping, deep reddish violet reticulated brown. 38 in. \$.50
- MAGNIFICENT, 79-79** (Fryer 1925). H.M. A.M. Society. S. bright violet rose. F. very large and long. Rood's violet, approaching crimson. Conspicuous orange beard. Redder in effect than Ger-Maine Perthus. 38 in. \$1.00
- MAJESTIC, 88-87** (Bliss 1923). S. pale bluish-mauve, shaded light bronze at base. F. flaring, purple, edged blue-violet, reticulated at base; yellow beard. Vigorous and free flowering. Enormous flowers of finest form. 42 in. \$.50

- MARJORIE TINLEY, 81-81** (Perry 1923). 42 inches. A fine large lavender blue bicolor on tall erect stems. Perry considers this one of his best introductions. \$.50
- MARQUISETTE** (Cayeuau 1926). 42 in. A new shade of pale shrimp pink, shaded salmon, floriferous bloomer. Tall sturdy plant. C. of M. S.N H.F. \$3.75
- MARY GIBSON, 84-85** (Perry 1922). This beautiful Iris is a very distinct color. S. a delicate shade of light bronze, overlaid old rose. F. old rose suffused bronze; conspicuous yellow base. Scented. Strong grower, free flowering. A. M. Royal Hort. Soc'y. 4 ft. \$.40
- MARY ORTH, 81-81** (Farr 1920). S. dome shaped, light blue violet. F. flaring, velvety dark blue violet. Good form and substance. 38 in. \$.35
- MARSH MARIGOLD, 82-81** (Bliss 1919). 30 inches. This is one of the most popular of the "variegata" group. The standards are rich buttercup yellow and the falls are velvety brownish red, with a bright yellow margin around the edge matching the color of the standards. The styles and beard are of the same beautiful buttercup yellow to match. \$.35
- MAY SADLER, (Perry 1925).** 38 in. A new and distinct flower; sturdy branching stems, very large flowers. S. broad and incurved, velvety dark violet-rose. F. dark velvet madder-crimson falls with dark bronze beard. \$2.00
- MEDRANO, 84-87** (Vilm. 1920). S. well arched, reddish copper, shaded violet. F. dark crimson, purple, almost black. Bright yellow beard. A fine large flower. 34 in. \$.20
- MELCHOIR** (Wallace 1927). A beautiful red-bronzy claret self with orange beard and bronzy purple markings on pale orange hafts. Ruffled velvety falls. Well branched. Melchoir is an improvement on Bruno and Mrs. Valerie West. 36 in. \$15.00
- MERCEDES, 77-77** (Verdier, 1905). 30 inches. A really fine "plicata" with white standards, flushed, veined and peppered bronzy lavender and beautifully speckled at the base with golden brown dots; falls white, edged violet, with golden brown veins at the front. A large, handsome flower. \$.20
- MENTOR, 85-82** (Perry 1923). 36 inches. A most effective rich velvety variety, with the texture of a pansy. Standards rich rosy lavender; falls crimson purple, with a beautifully marked throat and bright orange beard. \$.50
- MERLIN, 79-77** (Sturt. 1918). 36 inches. A very large flower with light lavender violet standards and pansy violet falls, with a conspicuous white throat overlaid with violet veins. \$.25
- MICHELLINE CHARRIERE, 90-87** (Denis). Four to five feet. S. domed purest white, golden reticulations. \$1.25

- MIDGARD**, (H. Sass 1926). S. and F. yellow shaded pink. The pink and yellow blend together and produce a bloom of indescribable beauty. Very large bloom of fine shape and lasting substance. This is perhaps the finest Iris yet produced by Mr. Sass. 36 in. **\$3.00**
- MME. CECILE BOUSCANT**, 89-88 (Mil. 1923). A. M. Paris Exposition 1925. S. a clear orchid pink; E. petunia-violet, suffused rose; almost a self. Probably the best of the orchid pinks. 3 ft. A good buy. **\$2.00**
- MME. DURAND**, 92-89 (Denis 1912). Iridescent buff flushed with lilac and amber, six inch blooms on long branching stems; attractive and unusual. 48 in. **\$1.25**
- MME. HENRI CAYEUX**, 86-85 (Cay. 1924). S. smoky reddish-violet. F. velvety dark crimson, lighter at edges. A beautiful Iris on the lines of Ambassadeur. 40 in. **\$1.50**
- MILDRED PRESBY**, 86-87 (Farr 1923). This is the finest of the amoenas. S. warm ivory white, flushed pale lavender. This is considered Farr's masterpiece. 32 in. **\$.50**
- MOA**, 90-87 (Bliss 1919). S. arching, and very broad; pure violet. F. broad, almost circular. Very smooth deep violet. Enormous flowers on tall, well branched stems; very heavy substance. This is one of my favorites. 42 in. **\$2.25**
- MOLIERE**, 79-79 (Vilmorin 1920). S. violet. F. deep velvety violet. large and deep colored. 30 in. **\$.50**
- MONS. ARNAL** (Denis 1923). A most delicate combination of pastel shades. S. coppery yellow with a touch of mauve; F. soft mauve tinted violet and rose. A wonderfully colored Iris, retaining all the charm of both its parents, Isolene and Menetrier. Seldom listed in American catalogs. 36 inches. **\$2.00**
- MOONLIGHT**, 85-84 (Dykes 1924). 36 inches. **FRAGRANT, EARLY**. A giant silver white flower that is as large as the giant flowered varieties in other colors. The throat is beautifully marked greenish gold and there is a striking yellow beard. **\$1.00**
- MORNING SPLENDOR**, 91-91 (Shull 1923). Silver Medal Garden Club of America 1926. S. petunia-violet; F. rich raisin purple; orange beard. General effect a rich glowing ruby-crimson. 42 in. **\$.50**
- MOTHER OF PEARL**, 84-84 (Sturt. 1917; Kunderd 1921). A light soft lavender with a lustrous texture displaying the iridescent colors of mother of pearl. 4 ft. **\$.25**
- MRS. E. T. VIESSIEUX**, 75-78 (Perry 1923). Very large flowers, beautifully shaped, and of great substance. S. bright crimson purple. F. purple black. One of the richest dark colored Irises. 42 in. **\$.50**
- MRS. ALBERT SHERMAN HOYT** (J. Sass 1927). S. white flushed with red-lilac, full and ruffled. F. white, flushed and dotted with a darker lilac. Early. H. M. A. I. S. '27. **\$2.50**

- MRS. HETTY MATSON, 77-80** (Perry). S. purple fawn, shot bronze
F. broad, rich crimson-purple. Rich yellow beard. Large globular
flowers. \$.25
- MRS. ROBERT EMMET** (Perry 1925). 38 in. Self pure milk white,
Stout stems, large flower, perfect shape, yellow beard. \$2.50
- MRS. VALERIE WEST**, (Bliss 1925). The highest development of
the Dominion race and one of the very finest of all Irises. S. bronze
flushed with reddish lavender. F. rich, velvety wine purple. The
immense branching spikes of great height bear massive flowers that
are marvelous in form and finish, at least double the size of those
of Ambassadeur. The color is somewhat similar to that of Ambas-
sadeur but somewhat redder and richer. Will be in demand when
known. \$13.50
- MRS. WALTER BREWSTER, 75-78** (Vilm.). Mid-season. S. light
lavender blue. F. darker, rose toned. \$.40
- MRS. W. CUTHBERTSON**, (Perry 1923). 44 inches. The standards
are soft rose, overlaid apricot and faintly veined old rose; falls
bright rosy crimson, edged silver. A large, well shaped, very hand-
some flower of unusual coloring. \$.50
- MRS. H. F. BOWLES, 80-83** (Perry 1923). 40 inches. Mr. Perry
considers this one of his finest introductions. It is an exceedingly
free flowering variety of a novel color combination, the standards
being soft brown overlaid old gold and the falls, which are of a
glistening silky texture, are a brilliant rich brick red. \$.35
- NAOMI**, (Yeld 1918). Similar to Lord of June but darker and bet-
ter form. Large flower of fine substance. 42 in. \$.20
- NEBRASKA**, (Sass). S. attractive apricot yellow; F. slightly striped
and clouded brown. \$3.50
- NENE**, (Cayeux 1928). S. soft clear-lilac; F. old rose, shaded vinac-
eous, lighter at edge; throat creamy white shaded Bordeaux; bright
orange beard. A larger, better shaped Magnifica with more sub-
stance in the standards, on taller, more widely branched stalks. An
unusually large flower of fair habits. The largest known flower
9 inches long. \$15.00
- NEPTUNE** (Yeld 1918). Similar to Lord of June but darker and bet-
ter form. Large flower of fine substance. 42 in. \$.20
- NIMBUS, 86-82** (Shull 1922). Rich velvety, violet, distinctly beautiful
but somber. Growth vigorous with widely branched stalks. 44 in.
\$.20
- OLIVER PERTHUIS, 76-78** (Mill. 1920). S. lavender-mauve. F.
purple-lilac; orange beard. Flowers something like Gaudichau,
but lighter color, and blooming later. 40 in. \$.20
- OPALINE**, (Williamson 1930). Pink and yellow flushed blend. Have
not seen this one in bloom. Mr. Williamson recommended it over
many of his others. \$10.00

- OREAD, 84.** Brilliant bronze and crimson of fine texture. Large. Blooms early. \$3.00
- ORIEN, (Vilm. 1926).** 36 in. Very large flower. S. smoky violet. F. velvety blackish violet, golden beard, good substance. Stands up well in all kinds of weather. \$1.75
- PARISIANA, 74-74 (Vilm. 1910).** S. white, thickly dotted and shaded ampara-purple. F. white fringed pale creamy white, margins purple-lilac. 36 in. \$.20
- PEAU ROUGE, 78-82 (Cayeux).** S. deep rose, tinted copper and violet. F. violet carmine. Yellow at base. Bronze beard. One of the best approaches to red. \$.50
- PEERLESS, 91-89 (Dykes 1924).** S. very erect, long, broad, light reddish-violet. F. long, straight hanging, deep purple-red, with bronze reticulations. Wonderful form. A most beautiful glowing Mahogany-red effect; rich gold beard. 40 in. \$5.00
- PLUE D'OR, (Cayeux 1928).** Dykes Memorial Medal for best new Iris 1928. Certificate of Merit, S.N., F.H. 40 in. Self yellow, widely branched stems, large blooms, good carriage. One you cannot forget when once seen. \$20.00
- PHYLLIS BLISS, 78-84 (Bliss 1919).** A beautiful pale rose-lavender self. Vigorous and free flowering. 33 in. \$.25
- PIONEER, 89-90 (Bliss 1924).** S. incurved, large, rich, red-purple. F. broad and strong, deep glowing red-purple, color solid without veining. A strong vigorous grower, well branched stems, flowering over a long period. 36 in. This is the most popular red-purple Iris in my collection. EXTRA. \$.75
- POLARIS, 70-78 (Sturt. 1922).** Abright violet self of splendid habit; a tall, large, dark self; 40 in. \$.35
- PRAIRIE GOLD, 72-74 (H. Sass 1926).** A beautiful golden yellow self. Good size blooms on 34 in stems. \$1.00
- PRINCESS BEATRICE, 90-90 (Barr 1898).** Delicate, silky light lavender-blue, with flaring falls; wavy edges; white beard, tipped orange. A strong, vigorous grower with wide light green foliage. 42 in. \$.25
- PRINCE LOHENGRIN, 73-81 (Mohr 1929).** A light mauve pink that is considerably pinker than Lohengrin. The stalks low and widely branched, but very free flowering. Fine for massing. 40 in. \$.40
- PROF. SEELIGER, 77-77 (Koeh. 1923).** A deep boreaux wine red self. Vigorous and free flowering. 36 in. \$.25
- PROSPER-LAUGIER, 86-84 (Verd. 1914).** S. tan, or light orange beard. A favorite with most all visitors at my garden. Robust grower, and very free flowering. 32 in. \$.20

- PROSPERO, 81-82** (Yeld 1920). S. bright lavender blue. F. well rounded deep red-purple, lighter at margin, brown reticulations, orange beard. Very large flowers of heavy substance and good form; well branched and free flowering. 48 in. \$.35
- QUAKER LADY, 72-75** (Farr 1919). S. smoky lavender shaded yellow. F. blue and gold, with orange beard. A beautiful free flowering blend of rare form and finish. 32 in. \$.15
- QUEEN CATERINA, 88-88** (Sturt. 1918). Pale lavender-violet self with white haft veined bronze; very attractive sheen; rich orange beard. Good size, good form and smooth texture. One of Miss Sturtevan's finest varieties. 42 in. \$.25
- QUIVERA** (Sass, J. 1928). 36 in. A buff and pink plicata blend. A most fascinating flower of large size, good form and substance on tall, well-branched stalks. Whole effect very pleasing. \$10.00
- RAFFET, 74-74** (Vilmorin 1920). Uniform dark blue, being striped at base with white. Beard yellow. Fine late variety. 2 ft. \$.25
- RAMESES** (Sass, H. P. 1928). 38 in. S. light russet vinaceous, lighter at mid-rib; F. tourmaline pink; prominent apricot beard. A remarkable blend on the order of Midgard but with more yellow in the standards and pink in the falls. It is also of better form, on taller, well-branched stems. One that the ladies enjoy. \$10.00
- ROBERT W. WALLACE, 83-83** (Perry 1923). S. rich violet. F. very rich deep, almost black-purple. This is one of the finest Irises in cultivation, and is always in great demand. 42 in. \$1.50
- ROMANY, 73-76** (Bliss). Two feet. Early. S. dusky yellow. F. bright red. Well reticulated. \$.20
- ROMOLA, 87-89** (Bliss 1923). 38 inches. This is one of the richest and most brilliant of the famous Dominion family. The flowers are very large, of perfect form and good substances. Standards pale ivory; falls velvety red-violet. \$2.75
- ROSE MADDER, 82-83** (Sturt. 1920). A brilliant rose madder variety with velvety falls. A great favorite.
- ROSEWAY, 74-78** (Bliss 1919). 36 inches. A very handsome uniform deep old rose color and a good landscape variety. \$.20
- ROSADO** (Mohr 1923). Clear pink. Tall, hardy here. A good pink. 42 inches. \$.50
- RUGAJO**, (Weed). This name is Esperanto for "red marks." S. flesh. F. Rood's violet. \$.25
- SAFRANO, 79-76** (Dykes 1922). A good yellow Iris with excellent orange beard. \$.50
- SAN GABRIEL, 90-88** (Dean 1921). Lustrous lavender flushed rosy-violet standards and dark velvety pansy violet falls. An exceedingly rich, perfectly formed flower of heavy substance on tall erect stems. \$.75

- SANTA BARBARA, 91** (Mohr 1925). 47 in. Lavender blue, probably the finest of this color yet introduced. About the best all around finished Iris. \$.65
- SEMINOLE, 83-83** (Farr 1920). S. dark violet-rose. F. rich velvety crimson; prominent orange beard. The effect is a brilliant velvety reddish-crimson. 32 in. \$.20
- SHASTA** (Mohr-Mitchell 1927). 40 in. This new white is well worthy of being named for California's great white-capped mountain. Snow white, with a few faint amber reticulations on the haft and is of fine form and excellent substance. \$2.50
- SKITCHWAUG** (Chase 1928). 32 in. S. light violet, flushed golden yellow; F. violet-purple, flushed golden yellow; rich orange beard. On the order of Isoline but is larger, darker and a more richly colored variety, of better form and habits.
- SHEKINAH, 84-84** (Sturt. 1918). The finest pale yellow of pallida habit. 3 ft. \$.20
- SHERBERT, 78-76** (Sturt. 1918). 49 inches. A fine flower with ecru drab standards and dahlia purple falls. A very tall vigorous variety. \$.25
- SIR MICHAEL**, (Yeld 1925). 48 in. S. F. This is one of the foremost Iris in the world today. S. clear blue lavender; F. are rich velvety blue purple with a golden-red beard. The flowers are large, the stalk well branched. This one will be outstanding for some time to come. \$12.50
- SNOW WHITE** (Sturt. 1929). 39 in. A pure white of good size and splendid form. \$2.00
- SIR GALAHAD, 84.** A large bright colored fragrant flower, a fine mauve and pansy violet, tinged with red. \$1.50
- SIMONE VAISIÈRE, 85-84** (Millet). Tall with rigid stem bearing a striking flower. S. white azure shaded. F. brilliant analine blue. Throat of this flower is pale colored veined maroon and gold. \$.50
- SINDJKA, 81-80** (Sturt. 1918). An Iris of fine quality; a combination of subdued lavender and buff in color; especially fine in the garden and a proved favorite with visitors. 4 ft. \$.25
- SOUV. De LOETITIA MICHAUD, 92-90** (Mil. 1923). The strong stems grow about four feet tall, bearing enormous flowers of a fine texture. Sky-blue, a little paler towards the edges. F. the same color beautifully veined yellow on the white ground of the haft. This is one of the most beautiful irises in the world. \$1.75
- SOUV. De MME. GAUDICHAU 9-88** (Mil. 1914). S. very deep rich blue purple. F. deeper shade; beard blue tipped yellow. 42 in. \$.44
- STAMBOUL, 78-77** (Foster 1916). S. light blue. F. rich violet-blue, vigorous, free flowering habit. 36 in. \$.25

- STEEPWAY, 82-82** (Scott). S. fawn, suffused red fawn. S. rose mauve. Distinctive in color. 42 in. H. M. A. C. S. \$.20
- SUNSET** (Denis) 36 inches. LATE. Given an award of Merit by the Royal Horticultural Society of England under its former name of "Ocracea coerulea." This is a most exquisite Iris in delightful pastel colors. \$.40
- SURPRISE**, (Cooley 1928). 44 inches. An offspring of Mme. Gaudechau. Same size and shape. F. soft heliotrope color; S. slightly lighter than the falls. Very large bloom borne on tall, straight stems. \$8.00
- SWATARA, 77-76** (Farr 1918). 36 inches. FRAGRANT. Standards lobelia blue, suffused bronzy yellow; falls bright violet; conspicuous orange beard. The flowers are of large size and quite fragrant. \$.25
- SWAZII, 89-84** (Bliss 1922). 38 inches. This variety sold in 1924 for \$75 and is one of the very finest of the "Dominion" race. S. bluish velvet; F. velvety blackish violet. The growth is vigorous and the coloring is among the darkest and richest of the race. \$5.00
- SYPHAX, 75-75** (Bliss). 30 inches. Strong contrast in S. pale violet and F. deep purple. \$.25
- SWEET LAVENDER, 85-87** (Bliss 1919). 36 inches. One of Bliss' finest productions with heavily ruffled pale lavender blue standards and flaring Chinese violet falls. \$.40
- SUSAN BLISS, 85-86** (Bliss 1922). A rich rose-pink self with a delicate purplish sheen. Similar to Dream. Free flowering, vigorous and a rapid increaser. Rhizomes always small. The best of the so-called pinks, but not a real pink effect. In great demand. 38 in. \$.50
- TAJ MAHAL, 82-81** (Sturt. 1921). 36 inches. A very fine pure white flower of fine form, heavy waxy substance and rugged constitution. One of our best whites. \$.50
- TARTARIN, 71-64** (Bliss 1919). An extraordinary variety producing enormous flowers of two distinct shades of pale lilac-lavender blue. 3 ft. \$.25
- TENEBRAE, 88-88** (Bliss 1922). 36 inches. EARLY. One of the richest and brightest of the "Dominion" race, with flowers of heavy pansy texture and of perfect form. A fit companion for the famous Sir Michael, being the same type flower but of a different color. Standards bluish violet; flaring falls rich velvety pansy violet with a beautifully marked throat and yellow beard. \$.50
- TITAN, 84-82** (Bliss 1919). 36 inches. A gigantic flower, being the largest of the large flowered "Dominion" race. Standards light violet blue; falls violet purple. This variety sold recently at \$50. It is one of the most striking Iris in cultivation, being of the finest form and texture, rugged and free flowering. \$1.00

THAIS, (Cayeux 1926). 42 inches. A self color of pale lilac pink; rich golden beard. One of the best pinks in commerce today. **\$3.25**

TROJANA, 77-77 (Species, Kerner). 38 inches. S. lavender. F. red purple. Has given its hardiness, fine branched stalk, and large bloom size to many of the best varieties. **\$.20**

TROOST, 78-79 (Denis). A pink lilac that is an improvement on **HER MAJESTY** for landscaping. **\$.20**

TROPIC SEAS, 85-85 (Shull 1924). S. dauphin's violet. F. velvety mulberry purple to hematoxylon violet, giving a very deep blue purple general effect. Conspicuously lit up by a rich, golden beard. A sister plant of Morning Splendour and Julia Marlowe, representing the blue extreme as Morning Splendour represents the red extreme of this family. A fine large, bold, fragrant flower on 50-inch stems **\$.35**

TRISTRAM, 75-75 (Bliss 1919). S. ash white. F. purple velvet. 27 inches. **\$.20**

TRUE CHARM, 88-44 (Sturt. 1920). A lovely plicata, white with the margins delicately etched with blue lavender. I sell more of this variety than all other plicatas. No one should be without this beautiful Iris. 38 in. **\$.50**

VESPER GOLD, 89-89 (Williamson 1927). S. and F. cream buff suffused with violaceous reflections; bright orange beard. A distinct and beautiful flower of especial charm when planted with the lavender blue pallidas, each tone acting as a foil to the other. Honorable Mention, American Iris Society. 40 inches. **\$1.50**

VIRGINIA MOORE, (Shull 1926). A very good yellow iris. Needed because a late bloomer. **\$.20**

WEDGEWOOD, 87-87 (Dykes 1923). 42 inches. The richest "Wedge-wood China" blue of uniform color throughout. The flowers are large and there is an unusually striking white beard. **\$1.00**

WHITE QUEEN, 81-81 (Geylenkek 1918). Absolutely pure white. Medium size flower of good substance. **\$.35**

WINDHAM, 68-71 (Farr 1909). Self-pink, good growth, especially fine for landscaping. **\$.20**

ZOUAVE, 75-76 (Vilm. 1922). 30 inches. LATE. An unusual plicata of good size and fine form. Standards white, beautifully suffused bright lilac; falls white, peppered and veined bright violet. **\$.50**

ZWANENBURG, 80-82 (Den. 1909). Intermediate. The earliest of all tall bearded Iris. S. amber washed olive green and lavender, the whole overlaid silvery-white. F. very velvety, ecru olive to fawn, flaked burnt lake. Very small rhizomes. 2 ft. **\$.25**

- WAMBLISKA** (Sass, J. 1930). 42 in. A very large white, with an undertone of the lightest blue at the base of the standards; rich orange beard. A flower of fine form and finish, very vigorous and free flowering, on strong, branched stalks. One of the best introductions for 1930. **\$25.00**
- YVES LASSAILLY**, (Cayeux 1928). S.N H.F., and special prize for one of the three best, new Irises 1928. 48 in. S. clear white; F. broad clear white with a suffusion of soft sky blue in the center. Well branched with 4 to 5 flowers open at one time. A real addition to any collection. **\$20.00**
- YELLOW MOON, 85** (Sturt.) Soft yellow of satiny texture **\$.85**
- WATTEAU...** S. campanula violet; F. violet-purple. N novelty **\$.75**
- ZAHARON** (Dykes 1927). 38 in. A rich vinaceous-lilac self; bright golden beard. On the order of Rameses, but of a lighter tone. Resembles Marquissette, but a lighter pink-toned blend. A flower of unusual form and finish and in a color class by itself **\$45.00**
- ZADA, 78-81** (Emigholz 1926). An improved White Knight with larger flowers on taller and more widely branching stems. An excellent pure color with a deep golden beard. Flowers of fine size and form, very freely born on 36-inch stems. Very favorably received in England and America. **\$.75**
- WHITE STAR** (Nicholls 1928). 37 in. A pure white without venation, having a very attractive ivory tone. Beard yellow. Falls nearly horizontal. High branched, masing the bloom at top. Excellent texture, the shape is different, the beard not so bright, and the stalk is on the Pallida order, short branched. Covered with bloom over a long period, it makes a wonderful ivory white mass. (Originator's description). **\$5.00**
- ZILIA PERRY**. Pansy blue self. Tall, vigorous, and free blooming. **\$.40**
- ZULU, 85**. A fine blue ci-color. S. naline blue, the F. a rich, dark, velvety blue. Much like color of blue velvet. Vrey outstanding and attractive. **\$2.50**
